

SCHEDULE

9th CMI international Symposium on Immunology &
20th Anniversary Celebration of CMI

*Official language may be either English or Chinese

2023/7/27 (Thursday)

2023/7/27 (Thursday)			
Time	Speaker	Presentation Title	Chairman
14:00-14:10	Zhigang Tian	Opening Ceremony	Yiwei Chu
14:10-14:40	Jiahuai Han	The role of p38 MAPK pathway in the host responses to LCMV	
14:40-15:10	Hongbing Shu	Regulation of antiviral and antitumor immunity	
15:10-15:40	Xiyun Yan	Nanozymes: a new field bridging nanotechnology and medicine	
15:40-16:10	Coffee Break		
16:10-16:40	Bing Su	Sin1-mediated mTORC2 signal in lymphocyte growth and metabolism	Haiming Wei
16:40-17:10	Bo Huang	Metabolic deciphering of CD8+ T cell memory	
17:10-17:40	CMI 20th Anniversary Awards	1.Best Paper Award 2.Best Reviewer Award	Bo Huang
18:00	Welcome Dinner		

2023/7/28 (Friday)

Time	Speaker	Presentation Title	Chairman
08:30-09:00	Zhigang Tian	Immunotherapy targeting NK cells	Yuzhang Wu
09:00-09:30	George F Gao	T Cell Recognition and Tumor Immuno-therapy by CAR-TCR	
09:30-10:00	Chen Dong	Molecular control of CD8+ T cell activation and function	
10:00-10:20	Coffee Break		
Time	Speaker	Presentation Title	Chairman
10:20-10:50	Youhai Chen	Myeloid immune checkpoints for cancer immunoth- erapy	Zhexiong Lian
10:50-11:20	Weiping Zou	IFN, a matter of life and death	
11:20-11:50	Li Bai	Regulation of innate-like T cell function in tumor im- munity	
12:00	Lunch (Satellite Meeting12:10-13:50)		
14:00-14:30	Feng Shao	Activation of antitumor immunity by bacteria-derived signals: Pyroptosis & Beyond	Wenwei Tu
14:30-15:00	Dietrich Kabelitz	Human $\gamma\delta$ T cells: Phosphoantigens and beyond	
15:00-15:30	Yiwei Chu	Regulatory B cells: known and unknown	
15:30-16:00	Bing Sun	Allergen proteases-activated stress granules assembly and Gsdmd fragmentation control IL-33 secretion	
16:00-16:20	Coffee Break		
16:20-16:50	Jie Sun	Reducing fratricide and enhancing therapeutic potency of CAR-T cells to treat T cell malignancies	Linrong Lu
16:50-17:20	Hui Peng	Hematopoietic and functional heterogeneity of liver -resident NK cells	
17:20-17:50	Fengyin Li	Antigen-Specific Hhexhigh CD4+ effectors as bona fide precursors of memory TFH cells to safeguard long-term humoral immunity	
18:00	Dinner		

2023/7/29 (Saturday)

Time	Speaker	Presentation Title	Chairman
08:30-09:00	Xuetao Cao	Innate sensors in immunity, inflammation and cancer immunotherapy	Zhinan Yin
09:00-09:30	Fusheng Wang	Progress in clinical immunology and immune therapy for HIV-1/AIDS disease	
09:30-10:00	Stipan Jonjic	New player in the cancer immunotherapy: anti-PVR mAb with multiple modes of action	
10:00-10:20	Coffee Break		
Time	Speaker	Presentation Title	Chairman
10:20-10:50	Yufang Shi	Mesenchymal Stem Cells Preprogram Anti-inflammatory Macrophages through IGF2	Limin Zheng
10:50-11:20	Yuzhang Wu	Immunology Big Data: Progress & Challenges	
11:20-11:50	Yangxin Fu	New mechanisms for antibody based fusion proteins for better targeting tumor tissues either tumor cells or immune cells	
12:00	Lunch		
14:00-14:30	Shu Zhu	The Intestinal immune responses toward microbes and food	Bin Li
14:30-15:00	Weidong Han	Anti-tumor immunotehrapy resistance and solving strategies	
15:00-15:30	Hongyan Wang	Macrophage and Inflammatory response	
15:30-16:00	Xiaodong Cheng	Demyelination is suppressed and remyelination is enhanced by natural herbal extraction in autoimmune inflammation of CNS	
16:00-16:20	Coffee Break		
16:20-16:50	Hong Tang	New findings of immunopathogenesis of sepsis	Jiyan Zhang
16:50-17:20	Chengjiang Gao	STING to phagosomes to negatively regulate anti-fungal immunity	
17:20-17:50	Zhutian Zeng	Imaging the barrier function of tissue resident macrophages during bacterial infections	
18:00	Farewell Dinner
